Thanks. Let me digest your material, then I may want to talk to you.

I'm not sure that EPA has a specific agenda as to the Vernalis standard, at least yet. So I think our comments will be more big picture oriented. I'll make sure I send you a copy of them once they are closer to done.

Karen,

Thank you for the email. In preparation for the April 22 SWRCB workshop on the Vernalis flow objective, I'm forwarding our first draft of the Service's powerpoint presentation. This is an update of the ppt we presented in Sep, 2008. We will be discussing this ppt with USBR and our

solicitors, so it's subject to revision. We will also be updating Interior's Sep 2008 statement to the SWRCB.

Please email or call me if you have any comments, suggestions, questions or need more information,

Roger

Roger - Bruce Herbold will be in touch to share our thoughts on input to the Board, as he has with NOAA. That may be a sufficient level of coordination for now. Maybe we can try to reschedule this mtg for early April. - Karen

Theresa,

Thank you for the email. I'm working on comments to the SWRCB for the April 22, 2009 workshop, but I'm not available on Mar 27. I could ask Dan Cox of my staff (he's been assisting me) to attend.

Please let us know,  
Roger

FYI

I need to reschedule this meeting, I was unaware of a previous meeting Cay had which overlaps this one. She is available between 2-4pm on the 27th, will this work for you both

Hi Karen

I have entered it on Cay's calendar.

i think i am around.. will check with theresa ..is so this might work. i  
think they are dropping the vernalis relaxation because forecast stayed at  
critical

Cay - Sorry we missed you today at noon. I think we were both trying to call NOAA at the same time, and by the time we got to Maria and Rhonda, it was 12:15 and we missed your available time.

Tom Hagler and I will be at Cottage Way on Friday, March 27. If you are there that day, might you be free from 10-11? We'd like to exchange what, if anything, we each might say at either the March 30 WQCP scoping workshop and/or the April 22 S Delta/SJ flow workshop (for which written material is due 4/6). Maria and Rhonda can come to your office. Maybe invite Roger Guinnee as well?
